 Fin: MFC FTP 21.5cm  
 (US Box)

**WAVE 92**  
 Volume: 92 Liters  
 Length: 244 cm  
 Width: 57.5 cm  
 Straps: 3 MFC Straps  
 Fin: MFC FTP 23cm  
 (US Box)

An exciting evolution from last year's line, Quatro's 2007 Wave boards are made for high-wind sailing in a broad range of wave conditions. The 63 and 69 liter Wave boards have fast rockers and sharp rails to give you the speed and control you need on the waves, while the concaves will keep your rails in the water for tight turns. The 76, 84 and 92 liter models are excellent light-wind wave boards and are also great for a heavier sailor who wants a fuller wave board. A balanced step up from the two smaller boards, these sizes will plane more easily and will carve just as well. Primarily for intermediate to advanced sailors, the Quatro Wave is designed to help you forget what's under your feet so you can focus on the wind and waves.

**FREESTYLE WAVE 95**

Volume: 95 Liters  
 Length: 250 cm  
 Width: 60.4 cm  
 Straps: 3 MFC Straps  
 Fin: MFC FW 27cm  
 (powerbox)

**FREESTYLE WAVE 75**

Volume: 75 Liters  
 Length: 244 cm  
 Width: 56 cm  
 Straps: 3 MFC Straps  
 Fin: MFC FW 23cm  
 (powerbox)

**FREESTYLE WAVE 85**

Volume: 85 Liters  
 Length: 247 cm  
 Width: 57.8 cm  
 Straps: 3 MFC Straps  
 Fin: MFC FW 25cm  
 (powerbox)

Shorter, wider, and fuller than our Wave boards, the brand-new Quatro Freestylewave gives you a wider range of uses on small waves or in flat-water conditions. Freewave sizes range from 75 to 85 to 95 liters, and all three models have a short bevel on the tail that allows for backward freestyle tricks and great freestyle maneuverability. The sharp rails and fast rocker help the board plane early and give it excellent pointing ability. As an exceptional wave sailor, Keith brings a skilled and inspired new perspective to Freewave board design. His high-end Freewaves will take you to the next level of performance: these boards have speed and maneuverability on flat or choppy water, as well as the grip and quickness to turn in small or slow waves. Discover your unforeseen wave and freestyle capabilities on this fast, unique, and alive board.

### **FREEMOVE 100**

Volume: 100 Liters  
Length: 248 cm  
Width: 62 cm  
Straps: 4 MFC Straps  
Fin: MFC LIQUID  
(powerbox)

### **FREEMOVE 120**

Volume: 120 Liters  
Length: 254 cm  
Width: 64 cm  
Straps: 4 MFC Straps  
Fin: MFC LIQUID  
(powerbox)

### **FREEMOVE 140**

Volume: 140 Liters  
Length: 264 cm  
Width: 67.5 cm  
Straps: 4 MFC Straps  
Fin: MFC LIQUID  
(powerbox)

Quatro's new Freemove boards are stable, fast, and extremely maneuverable. Available in 100, 120, and 140 liters, the 2007 Freemove is faster and easier to plane than ever before. Made for versatile sailing in light winds, this line has something for everyone: it offers intermediate or bigger sailors a wider range of uses; beginners can use the Freemove to get started in flat-water sailing; and Quatro's Freemove is also recommended for expert sailors who want a higher volume board for light-wind days. Great for full-speed jibes and a sensational ride, the Freemove will take you where you've never gone before!

Dial yourself into riding one of Keith's latest surf shapes! Since 1995, Keith Teboul has been dedicating himself to performance and quality through time in the water, innovation and originality bringing his shapes to a whole new level. Check out our complete design descriptions along with the performance characteristics of the 7 new boards in the Quatro Surfboards 2007 line.

**Minitanker 8'0"**

A great wave hogger and the most forgiving board in our line give the surfer confidence and performance on a mini longboard. Low entry rocker for trimming and enough tail rocker to stay high performance.

Dimensions:  
8'0" x 21.675" x 2.675"  
FCS Thruster set up (G5)  
Polished finish.

**Longboard 9'0" / 9'2"**

The modern longboard. From the shortboard experience, Keith has brought performance to our longboard line by shaping these two models. Accelerated rocker and excellent trimming capabilities.

Single Stringer

Available in:  
9'0" x 22.25" x 2.75"  
9'2" x 22.50" x 2.75"

FCS side GX fins along with a 10" longboard center box. (8" for the 9'0" and 9" for the 9'2" Center fin included)  
Polished finish.

**Longboard 9'6"**

A great all around longboard. The low entry allows for easier paddling and glide into waves as well as nose riding in small surf.

Single stringer.

Dimensions:  
9'6" x 22.75" x 3.00"

FCS side GX fins along with a 10" longboard center box. (10" Center fin included)  
Polished finish.

**Fish Egg 6'0" / 6'3"**  
Inspired in 2003 by the tow bullets, this little bullet has proven to ride as smooth as it looks. Wide tail for maximum speed over flat spots.

Available in:  
6'0" x 19.25" x 2.375"  
6'3" x 19.625" x 2.375"  
FCS thruster set up (G5)

**Shortboard 6'2"**

Our high performance shortboard. Lots of nose and tail rocker combined with a single to double concave bottom contour, gives the surfer speed and maneuverability. Narrow nose moves the wide point back to accommodate a quick explosive surfing style.

6'2" x 18.50" x 2.375"  
FCS thruster set up (G5)
